Composers Control

A template for Lemur

Setup

Local MIDI

- 1) Setup a **MIDI network** as shown in the manual for Lemur
- 2) Setup a connection between your computer and the iPad with Lemur on **port number 1**
- 3) **Transfer the template** to your iPad (see Lemur manual for details)

Usage

There are four “pages” in the template. You can of course use them to what you’d like but they’re called

1. Woodwinds
2. Brass
3. Strings
4. Solos

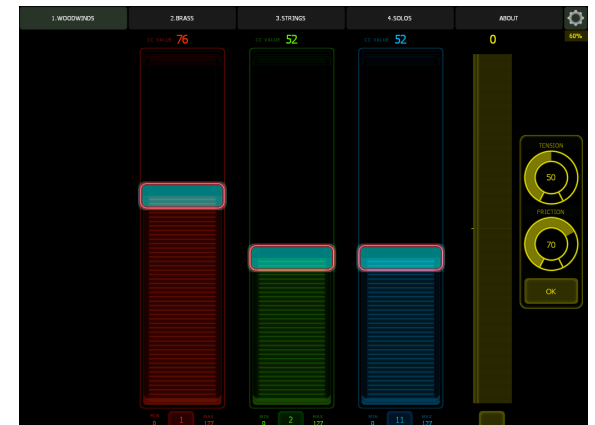

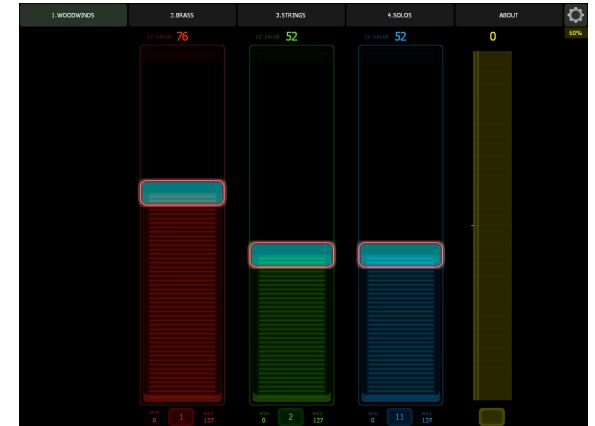

Pressing the square opens the settings for that fader, such as its MIDI-CC number, max/min values and the physics of the fader itself.

The min/max values of the fader let's you have a fader ranging from 30–80 (instead of 0–127) for example.

Knobs are **NOT** circular, they are changed with up/down movement

Other than this, you're good to go.

Important stuff (and somewhat boring)
